Summary

A second-year Computer Science Engineering student with a passion for front-end web development and Java programming. With skills in HTML, CSS, and JavaScript, I create user-friendly, responsive websites. I focus on designing intuitive interfaces and optimizing website performance. Java is my preferred programming language for tackling complex problems and developing efficient applications. I have a solid foundation in computer science principles, data structures, and algorithms and am constantly seeking opportunities to expand my knowledge and stay updated with industry trends and technologies.

Education

Saraswati Vidhya Mandir haldwani
